

# 文字盤で時間調節をする方法

## Adjusting time intervals on the dial

季節ごとの昼夜の長さに応じて、時間表示の駒の間隔を移動させる方式。

駒の配置には放射状、直線状がある。

The position of each hour marker was adjusted by a rail mechanism in accordance with the different lengths of day and night in each season.

The arrangement of the hour markers was either circular or straight.

### 割駒式文字盤

(夏至)

(冬至)
